

**A focused identity for a
frictionless print experience.**

Logo, color, type, spacing, shape language, usage rules, and applications.

Make advanced printing feel immediate.

JusPrin is the confident path from model to machine - a focused 3D-printing experience that removes detours without hiding control.

01

Focused

Every element earns its place.

02

Assured

Calm guidance, decisive actions.

03

Inventive

Technical, never intimidating.

04

Approachable

Plain language over jargon.

Voice: direct, capable, optimistic. Never cute, cryptic, or over-engineered.

The mark is the system's visual anchor.

Design interpretation

- **Orbit**

A continuous loop suggests an end-to-end print journey.

- **Crossing diagonals**

Precision and momentum converge at the center.

- **Open circle**

Control stays flexible, not closed or prescriptive.

- **Purple gradient**

Technical confidence softened by warmth.

LOGO SYSTEM

Use one name, three controlled expressions.

PRIMARY / HORIZONTAL LOCKUP

COMPACT / PRODUCT ICON

WORDMARK TREATMENT

JusPrin

Avenir Next Heavy

Capital J + capital P

No space, no all-caps

Tight optical tracking (–1% to –2%)

In body copy, write JusPrin in the surrounding text color - never force the gradient at small sizes.

A narrow purple spectrum carries the identity.

Orbit

#3A2D64

Primary / accessible on white

Violet

#6F4F84

UI actions / headings

Bloom

#CE84B7

Expressive accent only

Ink

#17131F

Text / dark surfaces

White

#FFFFFF

Primary canvas

Mist

#F6F2F7

Soft canvas / panels

Trace

#E8DFEB

Dividers / hover fills

Signature gradient

#3A2D64 -> #CE84B7

Logo and rare hero moments

Accessibility: Orbit and Violet pass AA for normal text on white; Bloom is reserved for large type, graphics, and accents.

Modern geometry. Clear hierarchy.

Avenir Next

Primary family / display, product UI, and marketing
Heavy for headlines · Demi Bold for actions · Regular for body

Menlo 0.20 mm 215 C

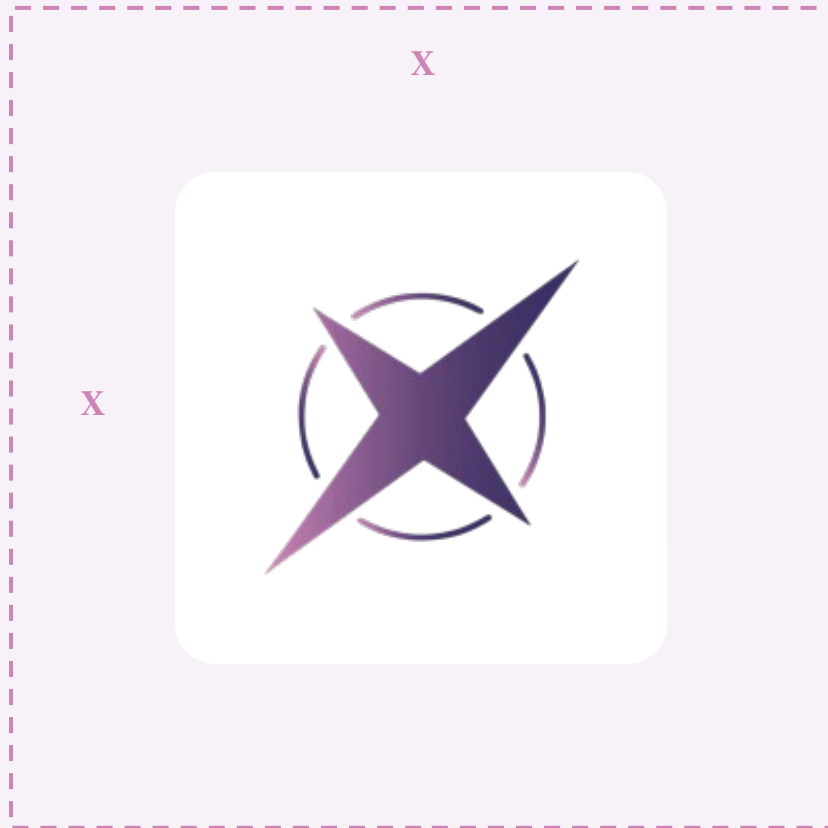

Technical companion / measurements, temperatures, filenames, and machine status. Use sparingly.

Display	48 / 52	Heavy
Heading 1	36 / 42	Demi Bold
Heading 2	24 / 30	Demi Bold
Body	16 / 24	Regular
Label	13 / 18	Demi Bold

From model to making.
Prepare with confidence
Print settings
Clear instructions keep the workflow moving.
SLICE & PRINT

Give the mark room to move.

CLEAR SPACE

X = 1/4 of the mark width. Keep at least X clear on every side; use more when the surrounding layout is visually active.

MINIMUM SIZE

24 px

Digital mark

120 px

Horizontal lockup

8 mm

Printed mark

32 mm

Printed lockup

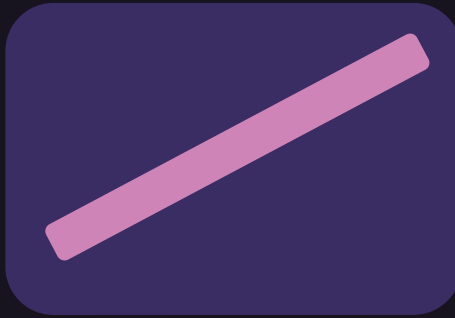

Below these sizes, use the mark only and verify the orbit arcs remain distinct.

Orbit. Direction. Calm containment.

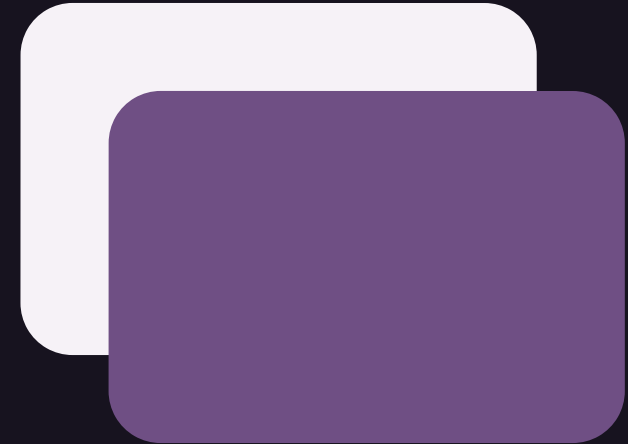

Orbit arcs

Use partial rings to signal progress, connection, or an active workflow.

Confident diagonals

Use one directional stroke to add momentum
- never a tangle of competing angles.

Rounded surfaces

Use 16-24 px radii for panels and app tiles;
pair with quiet, generous spacing.

Background rule: prefer White, Mist, or Ink. On photography, place the logo on a quiet solid field - never directly over visual noise.

Protect recognition through consistency.

DO

- Use the original artwork
- Preserve aspect ratio
- Maintain clear space
- Use approved backgrounds
- Use monochrome only when required

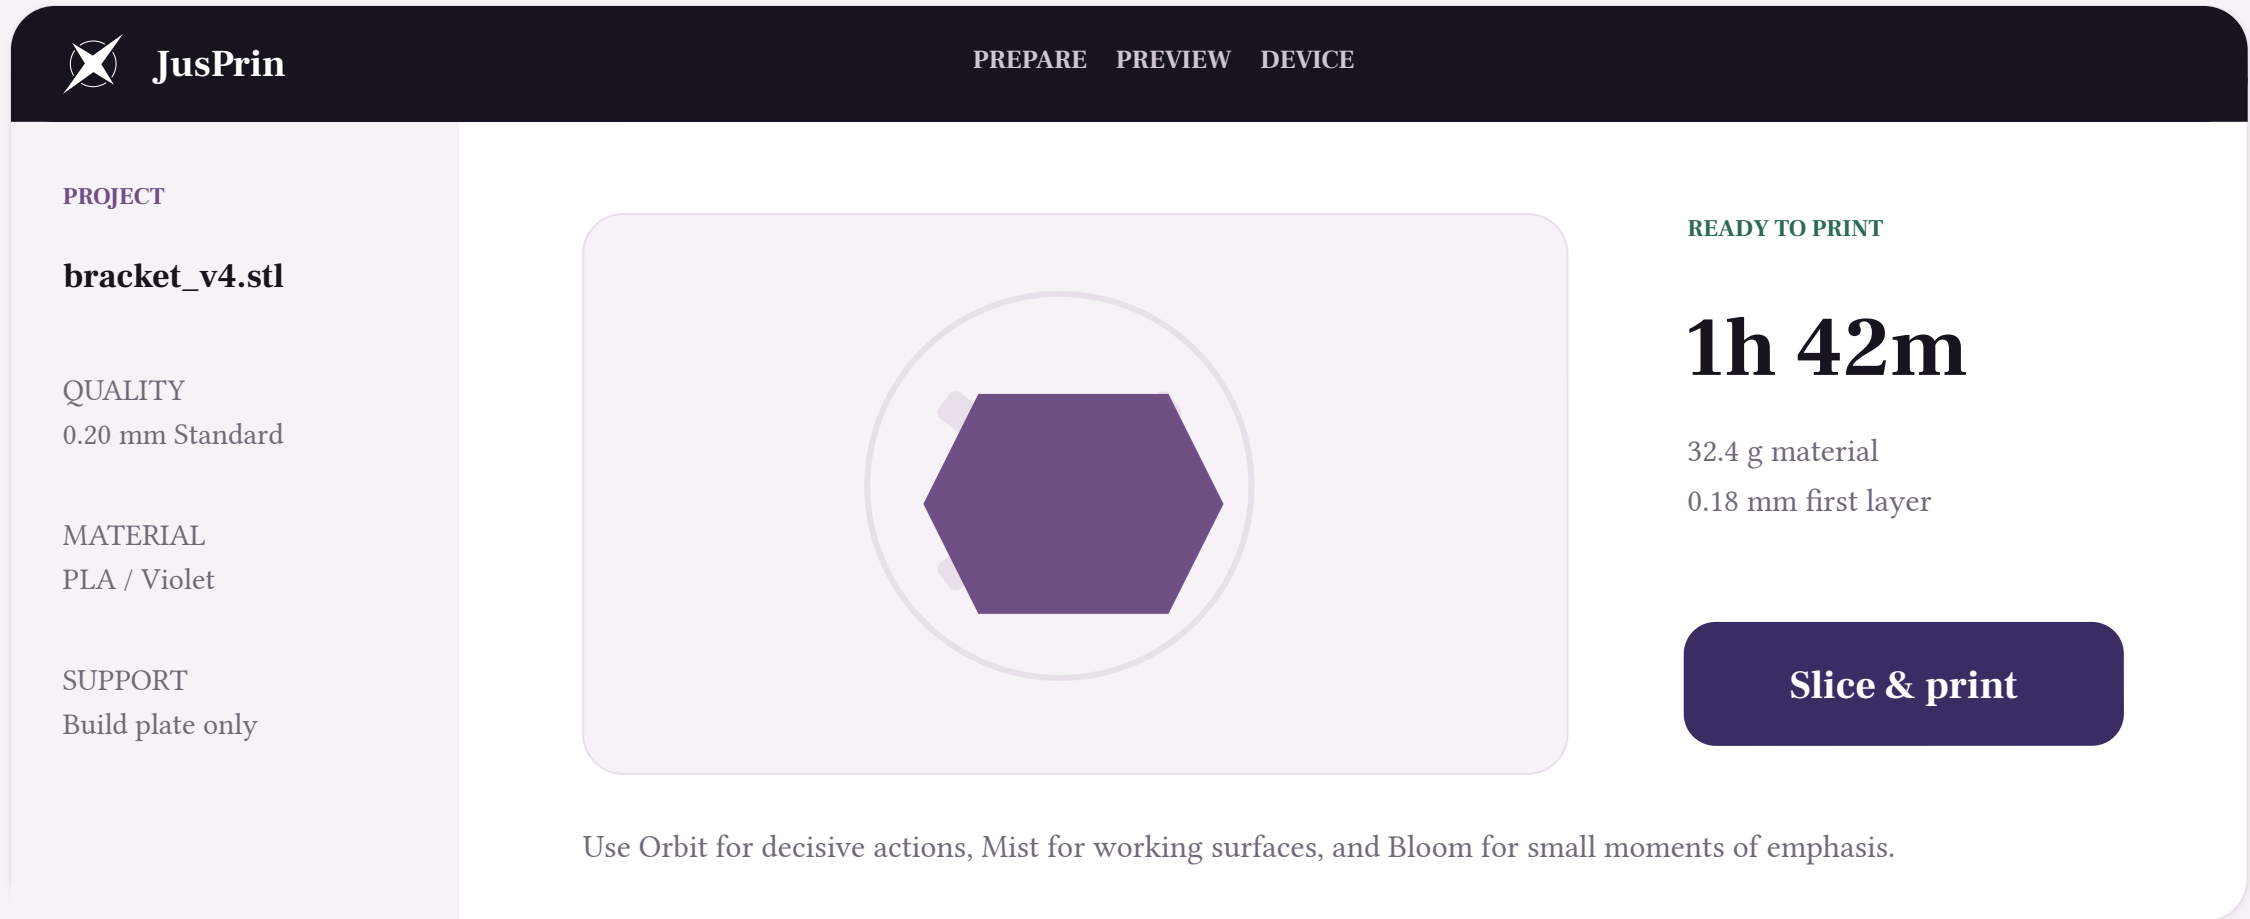

Quick test: if the central crossing or orbit arcs lose clarity, increase size, contrast, or surrounding space.

DON'T

- Do not stretch or rotate
- Do not recolor arbitrarily
- Do not add shadows or outlines
- Do not place over busy imagery
- Do not separate mark components

Brand guides the workflow.

Clarity leads. The mark creates motion.

From model to first layer, faster.

A focused printing workflow that keeps advanced controls close
and the next action obvious.

Start printing

PRINT WITH INTENT

Fewer detours. More making.

A clearer way to move from setup to a
confident first layer.

Keep JusPrin focused and unmistakable.

- | | | |
|----|---|---|
| 01 | Anchor with the original mark | Never redraw or separate its parts. |
| 02 | Use the purple spectrum with restraint | Orbit leads; Bloom accents. |
| 03 | Write JusPrin exactly this way | Capital J and P, no space. |
| 04 | Protect space and contrast | Clarity wins over visual novelty. |
| 05 | Make the next action obvious | Brand behavior should feel as focused as the visuals. |
